

GREENHOUSE  
**INNOVATION LAB**

# Greenhouse Internship Program

Cultivating the next generations of innovators

Greenhouse interns work alongside our full-time team members on real projects. They have to opportunity to develop and grow their skills in a variety of settings. This semester we had 3 designers, 2 analysts, and 1 technologist.

# Fall 2021

**Kaya Rivera**  
Design Intern

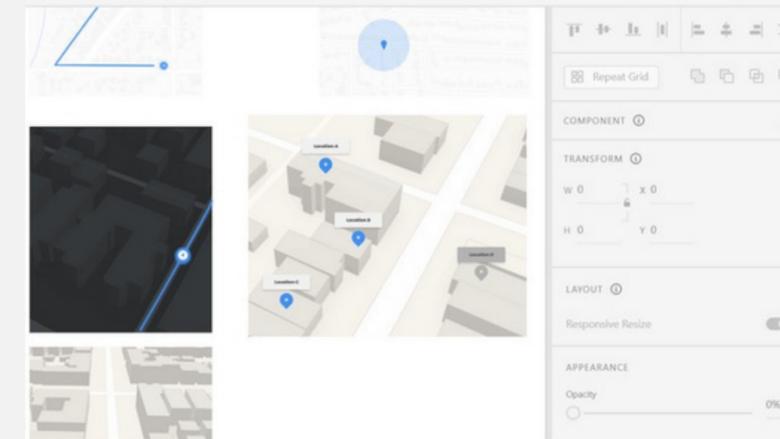

## Kiwi Voiceover

Practiced a prototype script for the Kiwi Project and did a recorded run through for the prototype in order to sync with voiceover audio.

## GH Style Guideline & Mobile Templates

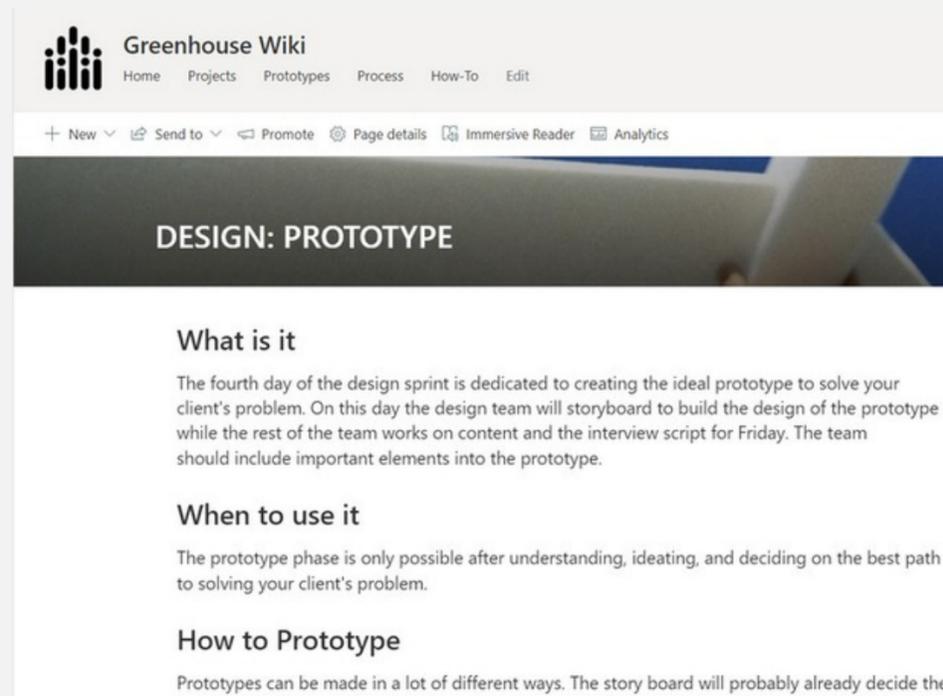

Created tools for Greenhouse Style guidelines, as well as organized a complete set of icons. Updated Mobile app screens and setting screen templates.

## Data Insights

Assisted in creating a deck to introduce the Data Insight project. Participated on client interviews to understand processes and made notes throughout that voiced potential ideas.

## Wiki

- Design: Prototype
- ResearchNet
- 5 Leading Megatrends of 2021-
- 2022 Mental Health in the workplace

## Universal Design Sprint

Created various of pages that helped understand the design sprint process in depth.

Prototype Page

Created a base outline

## GH Templates

Designed a template on Canvas for future uses within Greenhouse.
